

MindSight Clinic

TRANSACTIONAL ANALYSIS COURSE

It's important to have effective communication with your client while doing any therapy. The transactional analysis course helps a person or a physiotherapist to understand their client's behavior and guide them skillfully. It will also encourage you to understand the concept of modern relationships, which includes types of attitudes, emotions, and problematic behaviors.

There are different ego states of parents, adults, and child's which are covered in detail in the transactional analysis course. Also, you will get information and knowledge of nonverbal cues, speech, and gestures of different persons relating to their mental health problems.
